

CDC—Chronic Disease Prevention and Health Promotion

Major Goals

- Monitor, prevent, delay, detect, and control chronic diseases
- Conduct chronic disease research and translate to practical and effective prevention strategies
- Inform policy and implement environmental and systems approach that support health.
- Achieve equity in health by eliminating racial and ethnic disparities and achieving optimal health for all Americans
- Work with partners from all sectors of society to increase the reach and effectiveness of public health programs
- Develop a skilled, diverse, and dynamic public health workforce at the national, state, and local levels

Mission

To lead the nation's efforts to create expertise, information, and tools to support people and communities in preventing chronic diseases and promoting health for all.

Programs

- Arthritis
- Cancer Control
- Community Health
- Diabetes
- Epilepsy
- Healthy Aging
- Healthy Youth
- Heart Disease and Stroke
- Nutrition, Physical Activity and Obesity
- Oral Health
- Prevention Research Centers
- Reproductive Health
- Smoking and Tobacco Use
- Teen Pregnancy
- WISEWOMAN

States Receiving Program Funding in FY 2012

*Reflects funding for 101 communities including tribes plus an additional 6 national organizations
^These programs also fund tribes and/or territories.

How We Work

- **Epidemiology and Surveillance** to gather, analyze, and disseminate data and information and conduct evaluation to inform, prioritize, deliver, and monitor programs and population health.
- **Environmental approaches** that promote health and support and reinforce healthful behaviors (statewide in schools, work sites, and communities).
- **Health system interventions** to improve the effective delivery and use of clinical and other preventive services to prevent disease, detect diseases early, and reduce or eliminate risk factors and mitigate or manage complications.
- Improve **community-clinical linkages** to ensure people who have, or are at high risk for chronic diseases have access to quality community and clinical resources to best manage their conditions or disease risk.

Fast Facts

Chronic diseases...

- Are responsible for 7 of every 10 U.S. deaths
- Account for 75%+ of annual U.S. medical care costs: \$2.5 trillion
- Afflict 141 million Americans, living with 1+ chronic conditions
- Cause major limitations in daily living for ~1 of 10 Americans
- Are largely preventable

CDC—Chronic Disease Prevention and Health Promotion

Performance Highlights

Improved access to healthy food options increased for more than 6.6 million people

In targeted communities, **the rate of teen births** among 15 to 19 year-olds decreased from 71.8 per 1,000 in 2009 to 68.3 per 1,000 in 2011

Launched the Tips from Former Smokers campaign which generated at least **50,000 additional quitters**

FY 2014 President's Budget | \$1.036 Billion

FY2014 Budget Request

A total of \$1.036 billion requested includes:

- \$175 million decrease below FY 2012 level
- \$620 million in budget authority
- \$416 million from the Prevention and Public Health Fund (PPHF)

Budget Highlights

- \$13.8 million increase over FY 2012 in funding for tobacco control and prevention to expand the national mass-media campaign to raise awareness of the health effects of tobacco use and prompt smokers to quit.
- \$42 million decrease below FY 2012 for breast, cervical, and colorectal cancer screening resulting in approximately 116,000 fewer low-income, high-risk women being screened through the National Breast and Cervical Cancer Early Detection and Control Program. In 2014, Affordable Care Act implementation will provide access to cancer screening for more Americans.
- Approximately \$100 million decrease in PPHF from FY 2012 for Community Transformation Grants, Workplace Wellness, Let's Move, and Breastfeeding activities.
- Implement the Working Capital Fund to achieve greater efficiency and transparency of business support services (BSS). The 2014 request distributes a portion of the BSS appropriation to the program's budget line based on the program's historical business service consumption.

Funding History

FY 2012 and FY 2013 amounts have been made comparable to FY 2014 to reflect proposed Business Services Support realignment. PPHF for FY 2013 not final as of 3/15/13
